Impact Study Methodology

Students start by completing an official ACT practice test. Based on the results of the practice test and the school's implementation schedule, ChalkTalk generates an adaptive blended learning curriculum for each class in the school schedule—whole group instruction materials, small group practice and instruction, and individual practice exercises are generated for each class. Upon completing the ChalkTalk program, students then take another official ACT practice test. This impact study reports on both "growth" and "proficiency" using the scores from these two official practice tests.

The ACT College and Career Readiness Benchmarks are a set of benchmark scores for each ACT test that determine if the student is meeting the current grade level and is college ready. The benchmarks are shown below:

Based on the College-Readiness benchmarks, the following color-coding was used to create the pie charts below"

- : Student is behind by 2 or more grade levels.
- : Student is behind by 1 grade level.
- : Student meeting the benchmark of the current grade level.

85% of Active students that participated in the ChalkTalk program improved by one or more grade levels.
