## Impact Study Methodology

Students start by completing an official SAT practice test. Based on the results of the practice test and the school's implementation schedule, ChalkTalk generates an adaptive blended learning curriculum for each class in the school schedule—whole group instruction materials, small group practice and instruction, and individual practice exercises are generated for each class. Upon completing the ChalkTalk program, students then take another official SAT practice test. This impact study reports on both "growth" and "proficiency" using the scores from these two official practice tests.
