Impact Study Methodology

Students take an official ACT practice test. Test data is used to auto-generate daily lesson plans for the custom school schedule. Every lesson plan has whole group **instructional materials for the teacher plus student-facing materials (small group activities, personalized practice, and interactive study resources)**. Students end with another official ACT practice test.

This impact study reports on “**growth**” between the official test scores. It also uses reports on “**proficiency**” using the official College-Readiness grade-level test score benchmarks published by ACT.
